Google Code-in 2018
## Task from openMRS

NAME OF TASK SUBMITTER:

Prathamesh Mutkure

TASK:

Define Requirements for the Task Page

1. HEADER

The header should be the same across the whole website, it should be utilized to place the status bar along with the OpenMRS and GCI Logos, I have described the implementation of the header in my previous tasks submission.

2. FOOTER

Again, like header, the footer will also be same across the whole website, it will be utilized to put the social links of OpenMRS like its Twitter and Google Plus pages and it should also contain the OpenMRS logo.

3. BODY AND CONTENT

The body of the page will be used to put following things:

- Certain **Tips and Guidelines** for contestants for completing Tasks!
- Mentors **Expectations** from students and their task submissions.
- Links to OpenMRS GCI **Telegram Chat** and **Talk**, and other similar places. Where contestants can go, if they needed any help.
- Other similar content.
- And **Tasks Section**, about which I will be talking below.

4. TASK SECTION

The Task Section will consist Horizontal Long Rounded Tiles, which will display following things:

- Task Title.
- Time Availability.
- Task Tags.
- And a **View More Button**, which when tapped will open an **Overlay Page** for that particular Task, This Overlay page will be used display more info about the Task. I will talk more about this overlay page below.

5. OVERLAY TASK PAGE

This page will be used to display more info about a particular Task, and will include following info:

- Task Title.
- Task Description and Submission steps.
- Task Tags.
- Time Availability.
- Mentors assigned for that Tasks.
- Task Type/Category.
- Other necessary Details.

6. EXTERNAL LINKS

We can also provide other **External Contest Related Links** which may include links to:

- **Google Code-in website.**
- **OpenMRS website and Wiki page.**
- Other **helpful resources**, which may include links to the - About, Mentors, Contact, Home or any other pages of our website.

7. OpenMRS MISSION

The **OpenMRS Mission Tagline,** *"Write Code, Save Lives"* should be placed anywhere in the page, wherever it looks good.

THEME

Material Design Theme – With bright and vibrant material colors, rounded elements, and an overall attractive theme and yes, this page will be somewhat inspired by the GCI Task page.
